## Description

Presenting a piece of maritime history, the immaculate 1961 Halvorsen 44 'Septima' is now available for sale with Jack Warwick from Ray White Marine. After completing its top-to-toe refit in 2022, this vessel seamlessly blends top-of-the-range systems with its rich heritage and traditional aesthetic. The vessel has had only one owner since its refit, and it is evident from the meticulous care and attention lavished upon it.

The vessel's cosmetic upgrades and specifications shine through in its meticulously crafted splined planked timber, sleek 2-pac hull paint, and rechromed accents that gleam from bow to stern. Additionally, the owner has emphasised that all materials exposed to direct sunlight feature teak, while those in shaded areas are crafted from mahogany. Inside, the saloon and cabins are adorned with luxurious New Zealand wool carpeting, complemented by New Zealand custom-dyed leather on all couches and upholstery, while the cockpit and flybridge boasts elegant upholstered Sunbrella fabric on its seating.

This beautiful Halvorsen's galley reveals a well-equipped space featuring a convection oven, two cooktop plates, an Isotherm, three fridges, a freezer, a coffee machine, a vacuum, and a genuine natural stone cooktop.

Furthermore, in the engine room, the vessel is equipped with refit Twin Yanmar 8L V370s engines, with only 457 hours of use and still under warranty. For easy docking, Septima has both bow and stern thrusters, which are seamlessly integrated into both the flybridge and saloon helm. Septima is powered by a Northern Lights Gem Series Diesel Gen Set, Lithium batteries with only 200 hours of use, and connects to shore power.

The vessel is up to date with its modern technology including a full fusion sound system throughout, a home-style wifi setup, Arlo security camera system and Le Frame TV's throughout. There is also salt water cooled air conditioning making the vessel accessible in all conditions across the Australian seasons.

### Noteworthy Features:
